Tutoring

Is your high schooler ready to take the SAT or ACT and in need of some help preparing? Are you in need of a tutor for your student? Connective Tutoring can help you out! We have both group and one-on-one tutoring available and believe that the best results are reached when there is a strong relationship between the tutor and student.

As your neighbor on Whitesmith Way and one of the tutors for Connective Tutoring, I can say that this is one of the best STEALS in the Atlanta area when it comes to tutoring. Personally, my tutoring/mentoring experience is mostly through working with young job searchers for 7 years in DC and college juniors/seniors at James Madison University in Virginia. I haven't been with Connective Tutoring very long, but in my short time I have had success. Also, I can tell you Connective Tutoring is one of the best organizations I have ever worked. The owners take matching students and

tutors very seriously. They try to give you the best match available. I'm happy to give you any additional information needed and tell you about some of the tutoring I've done or you can visit our website: www.connectivetutoring.com.

It's never too late to get the help needed to have a successful SAT/ACT score or to get your student where they need to be in class.

Homeless Cats

There was recently a notice in the Gazette that Anna Pace and I had caught two homeless mother cats and their nine kittens and had them neutered. Six of the nine kittens were adopted, and three were with their mother. Two black and white kittens have not been seen in about two months. Would you put a notice in the Gazette so that Anna and I could find out if someone has adopted them or knows what has happened to them? If so, I can provide the new

owner with the kittens' medical history.

Thanks,
